MAY 15, 1992
EXAMINATION OF
APRIL 7-8, 1992

APPLICANT NUMBER 0-479-466-5

PART II
PASS

DR TAREK MOHAMED ABDELHAMID
9 SHERIF PASHA BABELLUK
APT. 18
CAIRO
EGYPT

DEAR DOCTOR:

THE REPORT OF YOUR PERFORMANCE ON THE COMPREHENSIVE PART II (CLINICAL SCIENCE) EXAMINATION OF THE NATIONAL BOARD OF MEDICAL EXAMINERS ADMINISTERED BY ECFMG FOR PURPOSES OF ITS MEDICAL SCIENCE EXAMINATION REQUIREMENT IS SHOWN BELOW.

YOU: PASSED THE PART II EXAMINATION.

YOUR TOTAL TEST SCORE	PASS/FAIL RESULT	REFERENCE GROUP PERCENTILE
214	PASS	79
	SCORE REQUIRED TO PASS PART II	167

SEE SCORE INTERPRETATION ON REVERSE SIDE

YOU HAVE SEVEN YEARS FROM THE DATE OF THIS EXAMINATION TO PASS A BASIC MEDICAL SCIENCE EXAMINATION ADMINISTERED BY ECFMG. IF THE BASIC MEDICAL SCIENCE EXAMINATION IS NOT PASSED WITHIN SEVEN YEARS, YOUR PASSING SCORE ON THE COMPREHENSIVE PART II WILL NO LONGER BE VALID.

MARJORIE P. WILSON, M.D.
PRESIDENT

FORM 22-N
MAY 92

COMPREHENSIVE PART II SCORE INTERPRETATION

YOUR TOTAL TEST SCORE. Your Total Test Score is a standardized score based upon your performance on the examination. Total Test Scores are reported on the same scale employed for the Anchor Group. The Part II Anchor Group includes all students in medical schools accredited by the Liaison Committee on Medical Education (LCME) who took the comprehensive Part II examination for the first time in September 1991 and were in their final year of medical school at that time. For this group, the mean Total Test Score was 200; with a standard deviation of 20. Most scores on the April 1992 administration fall between 140 and 260.

SCORE REQUIRED TO PASS PART II AND PASS/FAIL RESULT. The score required to pass Part II is shown in the respective box on the reverse side. Your pass/fail result is based solely on your Total Test Score.

REFERENCE GROUP DEFINITION. The Reference Group includes all students in medical schools accredited by the LCME who took the comprehensive Part II examination for the first time in April 1992 and were in their final year of medical school at the time they were tested.

REFERENCE GROUP PERCENTILE. This number indicates the percentage of Reference Group examinees with Total Test Scores lower than yours.

STANDARD ERROR OF MEASUREMENT (SEM). Your Total Test Score is influenced by both your general understanding of clinical science and the specific set of items selected for this Part II examination. The SEM provides an estimate of the variation in Total Test Scores that would occur if you had been tested repeatedly using different sets of items covering similar content; the SEM is the estimated standard deviation of these scores for an examinee under these repeated testings. The SEM for Part II is ± 5 points, indicating that your Total Test Score is within five points (2:1 odds) of the average value that would be obtained over repeated test administrations.
